## Scoring

Throw out the high and low completely. If there is a tie, find the highest of the low scores. That should be the winner. If there is still a tie, look for the highest of the remaining scores, then that is the winner. If there is still a tie, redo the kata according to tournament rules.
$1^{\text {st }}$ Place $\qquad$
$2^{\text {nd }}$ Place $\qquad$
$3^{\text {rd }}$ Place $\qquad$
